To whom it may concern:

I have worked with Trevor on a multitude of projects for several of my clients for the better part of the last decade. When I need to give my client's branding a professional upgrade, I have a high visibility project, or I just want to punch up the design work for client emails or social media elements, he is always the first person I reach out to. Not only is Trevor incredibly talented and creative he ***"just gets it."*** He is like an extension of my own brand who always seems to know exactly what I am looking for. He operates with minimal direction and zero hand-holding while also delivering impressive work every time, even on short turnarounds. My only hesitation in recommending him is not wanting to share his time and talents with others!
